
Smart Governance for Smart Electricity: MOVING FORWARD FROM THE AUDITOR GENERAL'S REPORT

WELCOME

On behalf of the University of Waterloo and the Richard Ivey School of Business at the University of Western, and the Council for Clean and Reliable Electricity, welcome to the conference on Smart Governance for Smart Electricity: Moving Forward from the Auditor General's Report.

This conference brings together experts from industry, labour, government and academia to debate policy priorities leading to improvements in the performance of Canada's agencies and crown corporations in the electricity sector.

We wish to express our appreciation to Jim McCarter, Auditor General of Ontario, for his keynote address and for leading the discussion, and to our speakers for stimulating the debate on the best governance approach in Ontario's evolving electricity sector.

At this time we would like to acknowledge the contribution of Council Member Jan Carr, as well as others for their expertise and commitment to the success of this event.

We welcome and appreciate your participation in this conference.
