CCRE

Annual Energy Leaders Roundtable

Hockley Valley Resort
Orangeville, Ontario

WELCOME

On behalf of the Council for Clean and Reliable Energy and our partners, welcome to the 16th CCRE Energy Leaders Roundtable. The theme of this Roundtable is “Building for the Future: Can we achieve our objectives?”

We are pleased to have brought together high caliber speakers and participants from the energy industry for open dialogue, a candid exchange of views, and networking among participants. There are several keynote addresses as well as panels introduced by brief presentations at the beginning of each session that are organized around a variety of timely and important topics.

We look forward to presentations and discussions from the sessions including:

- Nuclear Generation: A discussion on the surge of activity around building new nuclear generation. What is the overview of possible projects and completion challenges?
- Can Canada Expand its Electricity System Fast Enough to Keep up with the Growing Energy Demand?
- Nuclear Development Project Progress
- The PULSE Report: Its Direction and Impact
- The LDCs Response to the PULSE Report
- Financing the Last Mile
- Public Opinion: Where do we stand on support for major projects? Where is the resistance, and is it likely to inhibit delivery?
- Politics and the Energy Sector

We would like to express our appreciation to our event supporters: Ivey Energy Policy and Management Centre, Power Workers’ Union, Bruce Power, Makwa Development Corporation, Innovative Research Group, Gowling WLG (Canada) LLP, ATCO, London Economics International LLC, Enlightened Building Technologies, and Hydro One.

The Council is a group of volunteers who have an interest in promoting open debate about energy issues. We do not represent a particular interest group and attempt to bring together a broad range of stakeholders who share an interest in good public policy.

Glen Wright
Roundtable Co-Chair
CCRE Chair

David McFadden
Roundtable Co-Chair
Chair, Makwa Development

Thank you to our supporters

About the Council

The Council for Clean & Reliable Energy (CCRE) is a federally incorporated non-profit organization that provides a platform for dialogue and analysis on subjects related to energy policy. The CCRE was formed by a group representing academia, public and private sector business leaders, First Nations, and labour. The Council understands the value of creating a broader and more inclusive public discourse.

During the last decade, the Council has facilitated conferences, thought leaders roundtables, distributed opinionated publications, and shared knowledge and expertise. Its efforts have been recognized and appreciated by decision-makers in government and the energy business as providing a neutral forum for the free exchange of ideas and opinions. The Council remains committed to continuing to facilitate debate on the generation, transmission, and distribution of clean, affordable, and reliable energy with a clear focus on finding effective solutions for Canada and abroad.

Our Mandate

- To promote the generation, transmission, and distribution of clean, affordable, and reliable energy.
- To broaden public knowledge and understanding of the full range of available solutions and encourage fact-based reviews of the best available technologies on generation and emissions control.
- To encourage government action(s) regarding the generation, transmission and distribution of clean, affordable, and reliable energy that will enhance and sustain long-term economic growth and the environment.
- To encourage and promote ongoing independent research into policies and technologies that promotes clean, affordable, and reliable energy.

Honourary Members

Jan Carr Jatin Nathwani

In Memorium

Paul Newall

CCRE Member (2007 – 2024) and Honourary Member (2024 – 2026)

We would like to express our appreciation to Paul Newall for his dedication and passionate leadership provided.

As an organization, we are grateful for Paul's dedication to the CCRE, his commitment to representing the Power Workers' Union, supporting our initiatives and providing his expertise on many of our *CCRE Commentaries*. Recently, Paul decided to step down as a Member of the Council, and in recognition of his long and dedicated service to our organization and commitment to the energy sector, we decided to recognize him as an Honourary Member of the CCRE.

Paul was passionate about his community and the environment of Alton and worked tirelessly to care for and protect the Credit River and its watershed. He was dedicated to his work in the energy sector, with a long career with Ontario Power Generation followed by a second career as a consultant in the same field.

On behalf of the Council Members and friends in energy, thank you Paul.

Thank you to our Speakers and Presenters

As an expression of appreciation to the Roundtable speakers and presenters, the CCRE has donated to the Bruce Trail. The Bruce Trail is a hiking trail in southern Ontario, Canada, from the Niagara River to the tip of Tobermory, Ontario. The main trail is more than 890 km long and there are over 400 km of associated side trails.
